Notes to Certificates Under Section 105 of the *Land Tax Act 2005*

Certificate No: 40057926

1. Under Section 96 of the *Land Tax Act 2005* (the Act), unpaid land tax (including special land tax and vacant residential land tax) is a first charge on the land to which it relates and should the vendor default, payment will be obtained from the purchaser. The purchaser should take into account the possibility that the vendor may default where land tax has been assessed but not paid.
2. A purchaser who has obtained a Certificate is only liable to a charge on the land to the amount of unpaid land tax as certified by a Certificate. A purchaser must obtain the Certificate from the Commissioner. They cannot rely on the Certificate obtained by the vendor.
3. If land tax (including special land tax and vacant residential land tax) is due but not paid on a property, the Land Tax Clearance Certificate will certify the amount of land tax due and payable on that land. This amount will be binding on the Commissioner of State Revenue (the Commissioner) for purposes of section 96 of the Act whether or not it is paid to the State Revenue Office (SRO) on, or shortly after, settlement.
4. The amount of land tax on this certificate relates to the amount of land tax (including special land tax and vacant residential land tax) due and payable as at the date of the application only and not to any future liability or the tax status of the land.
5. A 'Nil' Land Tax Clearance certificate does not mean that the land on the certificate is exempt from land tax or vacant residential land tax.
6. If land tax (including special land tax or vacant residential land tax) will be payable on a property but payment is not due at the time the application is processed, the certificate will certify the amount that should be retained by the purchaser at settlement and remitted to the SRO. The Commissioner will consider himself bound by this amount against the purchaser, only if the amount is remitted to the SRO.
7. If the amount in 4. (above) is understated, the Commissioner has the right to seek recovery of the correct amount, or the balance, as the case may be, from the:
 - a. vendor, or
 - b. purchaser, if the vendor defaults and the certified amount has not been remitted to the SRO.
8. If an amount is certified in respect of a proposed sale which is not completed, the Commissioner will not be bound by the same amount in respect of a later sale of the subject land - another certificate must be applied for in respect of that transaction.
9. If an amount certified is excessively high (for example, because an exemption or concession has not been deducted in calculating the amount) the Commissioner will issue an amended certificate, without an additional fee being charged on receipt of sufficient evidence to that effect from the vendor.
10. If no land tax (including special land tax or vacant residential land tax) is stated as being payable in respect of the property, the Commissioner will consider himself bound by that certification, in respect of the purchaser, if the land is subsequently found to be taxable and the vendor defaults.
11. If the vendor refuses to be bound by an amount stated by the Commissioner and does not agree to the amount being withheld and remitted at settlement, the purchaser cannot rely on such refusal as a defence to an action by the Commissioner to recover the outstanding amount from the purchaser under Sections 96 or 98 of the Act.
12. The information on a certificate cannot preclude the Commissioner from taking action against a vendor to recover outstanding land tax (including special land tax and vacant residential land tax).
13. You can request a free update of a Land Tax Clearance Certificate via our website if:
 - there is no change to the parties involved in the transaction, and
 - the request is within 90 days of the original certificate being issued.

DUE DILIGENCE CHECKLIST FOR HOME AND RESIDENTIAL PROPERTY BUYERS

Consumer Affairs Victoria

Overview

Before you buy a home or vacant residential land, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them.

All sellers or estate agents must make this checklist available to potential buyers of homes or residential property.

Sellers or estate agents must:

- ensure copies of the due diligence checklist are available to potential buyers at any open for inspection
- include a link to this webpage ([consumer.vic.gov.au/due diligence checklist](http://consumer.vic.gov.au/due-diligence-checklist)) or include a copy on any website maintained by the estate agent or the seller (if no estate agent is acting for the seller).

You can print additional copies of the [Due diligence checklist \(Word, 58KB\)](#).

This page contains additional links to organisations and web pages that can help you learn more.

Urban living

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

For more information, visit the [Commercial and industrial noise page](#) on the [Environment Protection Authority website](#) and the [Odour page](#) on the [Environment Protection Authority website](#).

Buying into an owners corporation

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

For more information, view our [Owners corporations section](#) and read the [Statement of advice and information for prospective purchasers and lot owners \(Word, 53KB\)](#).

Growth areas

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

For more information, visit the [Growth Areas Infrastructure Contribution page](#) on the [Department of Environment, Land, Water & Planning website](#).

To find out if a property is within the Melbourne Strategic Assessment area, which has special requirements for biodiversity conservation, use the Obligations in the Biodiversity Conservation Strategy Area tool on the [Department of Environment, Land, Water and Planning - Native Vegetation Information Management website](#).

Flood and fire risk

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

For information about fire risk, visit:

- [Bushfire Management Overlay in planning schemes - Department of Environment, Land, Water & Planning website](#)
- [Building in bushfire prone areas - Department of Environment, Land, Water & Planning website](#).

For general information about flood risk, visit the [Australian Flood Risk Information Portal](#) on the [Geoscience Australia website](#).

To find out who is responsible for floodplain management in your area, visit the [Catchment management framework page](#) on the [Department of Environment, Land, Water & Planning website](#).

Catchment management authority websites:

- [Melbourne Water website](#) - includes floodplain management for Port Phillip and Westernport regions

Rural properties

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle. For information about what impacts you should expect and how to manage them, visit the [New landholders section](#) on the [Agriculture Victoria website](#).
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property. The limitations on clearing and processes for legal clearing are set out on the [Native vegetation page](#) on the [Agriculture Victoria website](#).
- Do you understand your obligations to manage weeds and pest animals? Visit the [New landholders section](#) on the [Agriculture Victoria website](#).
- Can you build new dwellings? Contact the local council for more information.
- Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land? For more information, visit the [Forestry & land use page](#) on the [Department of Environment, Land, Water & Planning website](#).

Earth resource activity, such as mining

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

For more information, visit the:

- [GeoVic page](#) on the [Department of Economic Development, Jobs, Transport and Resources website](#)

- [Information for community and landholders page on the Department of Economic Development, Jobs, Transport and Resources website.](#)

Soil and groundwater contamination

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

For information on sites that have been audited for contamination, visit the [Contaminated site management page on the Environment Protection Authority website.](#)

For guidance on how to identify if land is potentially contaminated, see the Potentially Contaminated Land General Practice Note June 2005 on the [Planning Practice Notes page on the Department of Environment, Land, Water & Planning website.](#)

Land boundaries

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

For more information, visit the [Property and land titles page on the Department of Environment, Land, Water & Planning website.](#)

Planning controls affecting how the property is used, or the buildings on it

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions - known as encumbrances - on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Proposed or granted planning permits

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

The local council can give you advice about planning schemes, as well as details of proposed or current planning permits. For more information, visit the [Planning Schemes Online section on the Department of Environment, Land, Water & Planning website.](#)

A cultural heritage management plan or cultural heritage permit may be required prior to works being undertaken on the property. For help to determine whether a cultural heritage management plan is required for a proposed activity, visit the [Planning and development of land page on the Aboriginal Victoria website.](#)

Safety

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites or other potential hazards.

For more information, visit the [Consumers section on the Victorian Building Authority website](#) and the [Energy Safe Victoria website.](#)

Building permits

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

For more information about building regulation, visit our [Building and renovating section.](#)

Aboriginal cultural heritage and building plans

For help to determine whether a cultural heritage management plan is required for a proposed activity, visit the [Planning and development of land page on the Aboriginal Victoria website.](#)

Insurance cover for recent building or renovation works

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

You can find out more about insurance coverage on the [Owner builders page on the Victorian Building Authority website](#) and [Domestic building insurance page on the Victorian Building Authority website.](#)

Connections for water, sewerage, electricity, gas, telephone and internet

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

For help choosing an energy retailer, visit the [Victorian Energy Compare website.](#)

For information on possible impacts of easements, visit the [Caveats, covenants and easements page on the Department of Environment, Land, Water and Planning website.](#)

For information on the National Broadband Network (NBN) visit the [NBN Co website.](#)

Buyers' rights

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.
