- 15A.2 Every vendor under this contract is a foreign resident for the purposes of this general condition unless the vendor gives the purchaser a clearance certificate issued by the Commissioner under section 14-220 (1) of Schedule 1 to the *Taxation Administration Act 1953 (Cth)*. The specified period in the clearance certificate must include the actual date of settlement.
- 15A.3 This general condition only applies if the purchaser is required to pay the Commissioner an amount in accordance with section 14-200(3) or section 14-235 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* ("the amount") because one or more of the vendors is a foreign resident, the property has or will have a market value not less than the amount set out in section 14-215 of the legislation just after the transaction, and the transaction is not excluded under section 14-215(1) of the legislation.
- 15A.4 The amount is to be deducted from the vendor's entitlement to the contract consideration. The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.
- 15A.5 The purchaser must:
- (a) engage a legal practitioner or conveyancer ("representative") to conduct all the legal aspects of settlement, including the performance of the purchaser's obligations under the legislation and this general condition; and

- 15A.6 The terms of the representative's engagement are taken to include instructions to have regard to the vendor's interests and instructions that the representative must:
- (a) pay, or ensure payment of, the amount to the Commissioner in the manner required by the Commissioner and as soon as reasonably and practicably possible, from moneys under the control or direction of the representative in accordance with this general condition if the sale of the property settles;

 - (b) the amount is included in the settlement statement requiring payment to the Commissioner in respect of this transaction.
- 15A.8 Any clearance certificate or document evidencing variation of the amount in accordance with section 14-235(2) of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* must be given to the purchaser at least 5 business days before the due date for settlement.
- 15A.9 The vendor must provide the purchaser with such information as the purchaser requires to comply with the purchaser's obligation to pay the amount in accordance with section 14-200 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)*. The information must be provided within 5 business days of request by the purchaser. The vendor warrants that the information the vendor provides is true and correct.
- 15A.10 The purchaser is responsible for any penalties or interest payable to the Commissioner on account of late payment of the amount.

☐ **Special condition 5A – GST withholding**

[Note: the box should be checked if the property sold is or may be new residential premises or potential residential land, whether or not falling within the parameters of section 14-250 of Schedule 1 of the *Taxation Administration Act 1953 (Cth)*]

General condition 15B is added:

15B. GST WITHHOLDING

- 15B.1 Words and expressions defined or used in Subdivision 14-E of Schedule 1 to the *Taxation Administration Act*

Words and expressions first used in this general condition and shown in italics and marked with an asterisk are defined or described in at least one of those Acts.

- 15B.2 This general condition 15B applies if the purchaser is required to pay the Commissioner an **amount* in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* because the property is **new residential premises* or **potential residential land* in either case falling within the parameters of that section, and also if the sale attracts the operation of section 14-255 of the legislation. Nothing in this general condition 15B is to be taken as relieving the vendor from compliance with section 14-255.
- 15B.3 The amount is to be deducted from the vendor's entitlement to the contract **consideration* and is then taken to be paid to the vendor, whether or not the vendor provides the purchaser with a GST withholding notice in accordance with section 14-255 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)*. The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.
- 15B.4 The purchaser must:
- (a) engage a legal practitioner or conveyancer ("representative") to conduct all the legal aspects of settlement, including the performance of the purchaser's obligations under the legislation and this general condition; and
 - (b) ensure that the representative does so.
- 15B.5 The terms of the representative's engagement are taken to include instructions to have regard to the vendor's interests relating to the payment of the amount to the Commissioner and instructions that the representative must:
- (a) pay, or ensure payment of, the amount to the Commissioner in the manner required by the Commissioner and as soon as reasonably and practicably possible, from moneys under the control or direction of the representative in accordance with this general condition on settlement of the sale of the property;
 - (b) promptly provide the vendor with evidence of payment, including any notification or other document provided by the purchaser to the Commissioner relating to payment; and
 - (c) otherwise comply, or ensure compliance, with this general condition;
- despite:
- (d) any contrary instructions, other than from both the purchaser and the vendor; and
 - (e) any other provision in this contract to the contrary.
- 15B.6 The representative is taken to have complied with requirements of general condition 15B.5 if:
- (a) settlement is conducted through the electronic conveyancing system operated by Property Exchange Australia Ltd or any other electronic conveyancing system agreed by the parties; and
 - (b) the amount is included in the settlement statement requiring payment to the Commissioner in respect of this transaction.
- 15B.7 The purchaser may at settlement give the vendor a bank cheque for the amount in accordance with section 16-30 (3) of Schedule 1 to the *Taxation Administration Act 1953 (Cth)*, but only if:
- (a) so agreed by the vendor in writing; and
 - (b) the settlement is not conducted through an electronic settlement system described in general condition 15B.6.
- However, if the purchaser gives the bank cheque in accordance with this general condition 15B.7, the vendor must:
- (c) immediately after settlement provide the bank cheque to the Commissioner to pay the amount in relation to the supply; and
 - (d) give the purchaser a receipt for the bank cheque which identifies the transaction and includes particulars of the bank cheque, at the same time the purchaser gives the vendor the bank cheque.
- 15B.8 The vendor must provide the purchaser with a GST withholding notice in accordance with section 14-255 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* at least 14 days before the due date for settlement.
- 15B.9 A party must provide the other party with such information as the other party requires to:
- (a) decide if an amount is required to be paid or the quantum of it, or
 - (b) comply with the purchaser's obligation to pay the amount,
- in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)*. The information must be provided within 5 business days of a written request. The party providing the information warrants that it is true and correct.
- 15B.10 The vendor warrants that:
- (a) at settlement, the property is not new residential premises or potential residential land in either case falling within the parameters of section 14-250 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* if the vendor gives the purchaser a written notice under section 14-255 to the effect that the purchaser will not be required to make a payment under section 14-250 in respect of the supply, or fails to give a written notice as required by and within the time specified in section 14-255 ; and
 - (b) the amount described in a written notice given by the vendor to the purchaser under section 14-255 of Schedule 1 to the *Taxation Administration Act 1953 (Cth)* is the correct amount required to be paid under section 14-250 of the legislation.
- 15B.11 The purchaser is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount, except to the extent that:
- (a) the penalties or interest arise from the vendor's failure, including breach of a warranty in general condition 15B.10; or
 - (b) the purchaser's reasonable belief that the property is neither new residential premises nor potential

residential land requiring the purchaser to pay an amount to the Commissioner in accordance with section 14-250 (1) of Schedule 1 to the *Taxation Administration Act 1953 (Cth)*.
The vendor is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount if either exception applies.

15B.12 This general condition will not merge on settlement.

Due diligence checklist

What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organizations and web pages that can help you learn more, by visiting the [Due diligence checklist page on the Consumer Affairs Victoria website](https://consumer.vic.gov.au/duediligencechecklist) (consumer.vic.gov.au/duediligencechecklist).

Urban living

Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odors from businesses and people. Familiarizing yourself with the character of the area will give you a balanced understanding of what to expect.

Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

Growth areas

Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

Flood and fire risk

Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

Rural properties

Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.
- Do you understand your obligations to manage weeds and pest animals?

Can you build new dwellings?

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licenses associated with the land?

Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licenses, extractive industry authorizations and mineral licenses.

Soil and groundwater contamination

Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

Land boundaries

Do you know the exact boundary of the property?

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

Planning controls

Can you change how the property is used, or the buildings on it?

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Are there any proposed or granted planning permits?

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

Safety

Is the building safe to live in?

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

Building permits

Have any buildings or retaining walls on the property been altered, or do you plan to alter them?

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

Are any recent building or renovation works covered by insurance?

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

Utilities and essential services

Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

Buyers' rights

Do you know your rights when buying a property?

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.

Notes to Certificate - Land Tax

Certificate No: 10429908

Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
 - Land tax that has been assessed but is not yet due,
 - Land tax for the current tax year that has not yet been assessed, and
 - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

Information for the purchaser

4. Pursuant to section 96 of the *Land Tax Act 2005*, if a purchaser of the land described in the Certificate has applied for and obtained a certificate, the amount recoverable from the purchaser by the Commissioner cannot exceed the amount set out in the certificate, described as the "Current Land Tax Charge and Vacant Residential Land Tax Charge" overleaf. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

Apportioning or passing on land tax to a purchaser

6. A vendor is prohibited from apportioning or passing on land tax including vacant residential land tax, interest and penalty tax to a purchaser under a contract of sale of land entered into on or after 1 January 2024, where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

General information

7. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
8. An updated Certificate may be requested free of charge via our website, if:
 - The request is within 90 days of the original Certificate's issue date, and
 - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

Notes to Certificate - Commercial and Industrial Property Tax

Certificate No: 10429908

Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any commercial and industrial property tax (including interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue.

Australian Valuation Property Classification Code (AVPCC)

3. The Certificate may show one or more AVPCC in respect of land described in the Certificate. The AVPCC shown on the Certificate is the AVPCC allocated to the land in the most recent of the following valuation(s) of the land under the *Valuation of Land Act 1960*:
 - a general valuation of the land;
 - a supplementary valuation of the land returned after the general valuation.
4. The AVPCC(s) shown in respect of land described on the Certificate can be relevant to determine if the land has a qualifying use, within the meaning given by section 4 of the *Commercial and Industrial Property Tax Reform Act 2024* (CIPT Act). Section 4 of the CIPT Act Land provides that land will have a qualifying use if:
 - the land has been allocated one, or more than one, AVPCC in the latest valuation, all of which are in the range 200-499 and/or 600-699 in the Valuation Best Practice Specifications Guidelines (the requisite range);
 - the land has been allocated more than one AVPCC in the latest valuation, one or more of which are inside the requisite range and one or more of which are outside the requisite range, and the land is used solely or primarily for a use described in an AVPCC in the requisite range; or
 - the land is used solely or primarily as eligible student accommodation, within the meaning of section 3 of the CIPT Act.

Commercial and industrial property tax information

5. If the Commissioner has identified that land described in the Certificate is tax reform scheme land within the meaning given by section 3 of the CIPT Act, the Certificate may show in respect of the land:
 - the date on which the land became tax reform scheme land;
 - whether the entry interest (within the meaning given by section 3 of the Duties Act 2000) in relation to the tax reform scheme land was a 100% interest (a whole interest) or an interest of less than 100% (a partial interest); and
 - the date on which the land will become subject to the commercial and industrial property tax.
6. A Certificate that does not show any of the above information in respect of land described in the Certificate does not mean that the land is not tax reform scheme land. It means that the Commissioner has not identified that the land is tax reform scheme land at the date of issue of the Certificate. The Commissioner may identify that the land is tax reform scheme land after the date of issue of the Certificate.

Change of use of tax reform scheme land

7. Pursuant to section 34 of the CIPT Act, an owner of tax reform scheme land must notify the Commissioner of certain changes of use of tax reform scheme land (or part of the land) including if the actual use of the land changes to a use not described in any AVPCC in the range 200-499 and/or 600-699. The notification

must be given to the Commissioner within 30 days of the change of use.

Commercial and industrial property tax is a first charge on land

8. Commercial and industrial property tax (including any interest and penalty tax) is a first charge on the land to which the commercial and industrial property tax is payable. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid commercial and industrial property tax.

Information for the purchaser

9. Pursuant to section 27 of the CIPT Act, if a bona fide purchaser for value of the land described in the Certificate applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser is the amount set out in the Certificate. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

10. Despite the issue of a Certificate, the Commissioner may recover a commercial and industrial property tax liability from a vendor, including any amount identified on this Certificate.

Passing on commercial and industrial property tax to a purchaser

11. A vendor is prohibited from apportioning or passing on commercial and industrial property tax to a purchaser under a contract of sale of land entered into on or after 1 July 2024 where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

General information

12. Land enters the tax reform scheme if there is an entry transaction, entry consolidation or entry subdivision in respect of the land (within the meaning given to those terms in the CIPT Act). Land generally enters the reform on the date on which an entry transaction occurs in respect of the land (or the first date on which land from which the subject land was derived (by consolidation or subdivision) entered the reform).
13. The Duties Act includes exemptions from duty, in certain circumstances, for an eligible transaction (such as a transfer) of tax reform scheme land that has a qualifying use on the date of the transaction. The exemptions apply differently based on whether the entry interest in relation to the land was a whole interest or a partial interest. For more information, please refer to www.sro.vic.gov.au/CIPT.
14. A Certificate showing no liability for the land does not mean that the land is exempt from commercial and industrial property tax. It means that there is nothing to pay at the date of the Certificate.
15. An updated Certificate may be requested free of charge via our website, if:
 - the request is within 90 days of the original Certificate's issue date, and
 - there is no change to the parties involved in the transaction for which the Certificate was originally requested.

An Overview of the Property Inspection

A property inspection is a non-invasive visual examination of a property, performed for a fee, which is designed to identify observed material defects within specific components of the property. It is intended to assist in evaluation of the overall condition of the property. The inspection is based on observation of the visible and apparent condition of the structure and its components on the date of the inspection and not the prediction of future conditions.

A property inspection will not reveal every concern that exists or ever could exist, but only those material defects observed on the day of the inspection. An Inspection report shall describe and identify in written format the inspected systems, structures, and components of the property and shall identify material defects observed. Inspection reports may contain recommendations regarding conditions reported or recommendations for correction, monitoring or further evaluation by professionals, but this is not required. Within the report you will find items in **RED**. These are items which have been flagged as deficient and require attention. For your safety and liability, we recommend that you hire a contractors when having any work done. Note: If there are no comments in **RED** below, there were no **CRITICAL** system or safety concerns with this property at the time of inspection.

Please carefully read your entire Inspection Report. Call us after you have reviewed your report, so we can go over any questions you may have. Remember, when the inspection is completed and the report is delivered, we are still available to you for any questions you may have, throughout the entire closing process. Properties being inspected do not "Pass" or "Fail." - The following report is based on an inspection of the visible portion of the structure. Important - Please Read Carefully

You will note in the report there is set of boxes next to each section with the following written options across the top: MAINT - PREV - MONIT - DEFR - DEFIC

These are the definitions of these terms which may be selected:

MAINT - MAINTENANCE: A system or component requiring maintenance appears to be functioning as intended, but would benefit from minor repair, service, maintenance or improvement at this time. This may include patching, painting, cleaning, or in some instances a system service by an appropriate specialist.

PREV - PREVENTATIVE: Any improvement to an area, system, component or condition that would help prevent an issue from occurring in the future.

MONIT - MONITOR: An area, condition, system or component that is in need of monitoring appears to be functioning as intended and capable of safe usage in its present condition; however, the inspector's suggests evaluation in the future which would confirm if further action is required.

DEFR - DEFERRED: An area, system, component or condition that is listed as deferred is one that could not be operated or inspected for the reason stated in the report, and may require further evaluation. These may also be items outside our standard of practice, inaccessible or not functional. If required deferred items should be checked prior to settlement during the pre-settlement inspection.

DEFIC - DEFICIENT: A system or component marked as deficient is one that did not respond to user controls, was not able to be safely used, was not functioning as intended, or was otherwise defective. These may be items that are incomplete or have imperfections and with further evaluation these items may (or may not) be found to be material defects. Anything marked as DEFIC is classified as a MAJOR DEFECT under the Australian Standard. Your inspector does NOT prioritize or emphasize the importance of one deficiency over another. General deficiencies include inoperability, material distress, water penetration, damage, deterioration, missing parts, and unsuitable installation.

Items Requiring Attention - Summary

The summary below consists of potentially significant findings. These findings can be a safety hazard, a deficiency requiring a major expense to correct or items we would like to draw extra attention to. The summary is not a complete listing of all the findings in the report, and reflects the opinion of the inspector. Please review all pages of the report as the summary alone does not explain all of the issues. All repairs should be done by a bonded tradesman or qualified professional. Resicert recommend obtaining a copy of all receipts, warranties and permits for the work done.

Our Services

Pre-Purchase Inspection: Are you buying a new home? Our pre-purchase building and timber pest inspections will provide you with total peace of mind.

Safety Barrier and Pool Condition Inspection: Effective pool fencing also helps keeps young children safe. This is why pool safety laws are in existence. There are a number of aspects of a swimming pool that require regular attention to ensure they are safe places for all swimmers.

Timber Pest Inspection: A property is normally the largest investment people make in their lifetime, therefore it is important to protect your house (or the house you are about to buy) against timber pests by conducting regular bi-annual or annual inspections.

Handover Defects Inspection - (PCI): Make sure that you are getting what you paid for your new home. This is a detailed inspection undertaken on your new home build before you make your final payment.

Builders Warranty Inspection: Homes that are less than 6 years old require a builder warranty inspection. This then remains with the home for 6 years regardless of ownership. Great way to ensure any issues that can be fixed whilst still under warranty are not missed.

Owner Builder Warranty Inspection: This is when a owner builder wishes to sell their home and builder warranty insurance is required. The insurance company requires a defects report which is what we provide.

Depreciation Schedules for Investors: For Investment Properties, A Tax Depreciation Schedule details how much depreciation is possible to claim on your investment property at tax time. This will give you all you need to hand to your accountant so you can claim maximum depreciation for up to 40 years! .

Methamphetamine Screening: 1 in 10 houses in Australia have a level of Methamphetamine contamination. This inspection is designed to give you peace of mind in buying or renting out a property by taking a swab sample from multiple areas in your home and having these analysed for traces of Methamphetamine residue. Our Testing Cassettes are designed to give you an on-the-spot reading as to whether your property displays under/or over the 0.5g contamination level that is deemed safe by Australian standards. Whether you are moving into your new family home or planning on tenants, be reassured that the home is safe and secure without the worry of methamphetamine contamination inside the property.

We recommend the property is inspected for these conditions by a qualified timber pest inspector, which we can do, in accordance with the latest revision of AS 4349.3. Reporting of mould is limited to the identification of the presence of mould in areas where it is apparent at the time of the inspection. Identification of strains/classifications/types of mould is not possible without sample testing and is excluded from this report.

2. Entering roof spaces that are heavily insulated can cause damage to the insulation and framing. Roof spaces with deep insulation cannot be safely inspected due to limited visibility of the framing members upon which the inspector must walk. In such cases, the roof space is only partially accessed, thereby limiting the review of the attic from the hatch area only. Inspectors will not crawl the roof space when they believe it is a danger to them or that they might damage the insulation or framing. There is a limited review of the roof space viewed from the hatch only in these circumstances. Due to the location and restricted visibility of roof structure tie-down fixings we cannot confirm compliance with AS1684.

3. The roof covering will not be walked upon if in the opinion of the inspector it is not safe to do so. Generally issues that prevent roof access include, access height over 3 metres, steep pitch, wet/slippery surfaces, deteriorated covering. Not being able to walk on the roof significantly limits our inspection which can result in hidden defects going undetected.

4. Any comments in this report relating to asbestos in the property is not exhaustive or conclusive. Asbestos location and assessment is not included as part of our normal inspection process. If you require a comprehensive assessment we recommend that you engage a appropriately qualified specialist contractor.

5. Where a current electrical safety certificate is required, this report does not satisfy or remove the need for that requirement. We are not qualified electrical contractors and can not confirm that electrical components of the inspection full comply or operate with the relevant electrical standards which only a qualified electrical contractor can advise. This also applies to specific requirements and legislation relating to smoke alarms which varies from state to state.

6. Australian Standard AS 4349.1 recognises that a standard property inspection is NOT a warranty. To further protect your interests we strongly advise that you consider insuring your house against undetected structural damage and problems developing with the building structure in the future.

7. It may be a requirement, depending of the location of your property, that the main power is turned off prior to entering the roof space. If we are unable to meet this requirement during the inspection the internal roof space may need to be inspected from the manhole only.

Resicert Service Agreement

Resicert Inspection and Service Agreement - November 2025

1.0 Acceptance of Agreement : The Client has made a booking, accepted the quotation and the inspector arrives on site to commence the inspection, the Client is deemed to accept this agreement as to the basis of the inspection being undertaken. This agreement takes precedence over any previous oral or written representations by Resicert.

2.0 Payment Terms : Full payment of the inspection is required prior to the inspection report and summary being provided to the Client.

3.0 Purpose of Inspection : The purpose of the inspection is to provide advice to the Client in relation to the condition of the property at the time of the inspection. This report is not an all encompassing report dealing with the building from every aspect. It is a reasonable attempt to identify any obvious or significant defects apparent at the time of the inspection.

4.0 Scope of Inspection : Scope of inspection will depend on the inspection type which the Client has selected. Pre-purchase inspections are undertaken in accordance with AS 4349.1 - 2007 - Inspection of buildings

Part 1: Pre-purchase inspections— Residential buildings - unless otherwise stated in the numbered clauses below. Pre-purchase property inspections do not inspect to or comment on building codes, as building codes for different structural areas change regularly. Pre purchase property inspections are designed to offer an informed opinion on what is visibly apparent on the date of inspection.

Timber Pest Inspections are undertaken in accordance with AS 4349.3-2010 - Inspection of Buildings - Part 3 - Timber Pest Inspections. 'Sounding' will be used as a method of inspection where practical and possible. Resicert Pest Inspectors conduct detailed but non-invasive Timber Pest Inspections, but are not Pest Controllers. Rodents, Spiders or other Pests do not form a part of our Inspection process, our Inspectors purely seek to investigate presence of (or past evidence of) Timber Pest Inspects, including but not limited to Termites and Borers.

4.1 Basic and Standard Inspections : The inspection shall comprise visual appraisal and limited assessment of accessible areas of the property to identify MAJOR DEFECTS to the building structure and to form an opinion regarding the general condition of the structure of the property.

It is not required to contain any assessment or an opinion regarding the following:

-Any non-structural element, e.g., roof plumbing and roof covering, general gas, water and sanitary plumbing, electrical wiring, partition walls, cabinetry, windows, doors, trims, fencing, minor structures, non-structural damp issues, ceiling linings, floor coverings, decorative finishes such as plastering, painting, tiling, etc. -An assessment of any aspect or component of the property that cannot be seen or that requires testing and/or measurement to determine soundness. - Any area or item that was not, or could not be, observed by the inspector. -General maintenance other than that which is

deemed to be directly related to the ongoing structural performance of the property. -Serviceability damp defects such as condensation, rising damp, lateral damp, falling damp should only be assessed and reported on where structural damage has occurred, is occurring, or may occur.

4.2 Plus Inspection : Resicert shall inspect accessible parts of the building and appurtenances, together with relevant features of the property within 30m of the building and within the boundaries of the site, or as otherwise agreed in the inspection agreement. In this context, relevant features include car accommodation, detached laundry, and garden sheds, retaining walls more than 700 mm high, paths and driveways, steps, fencing, earth embankments, surface water drainage and storm water run-off.

4.3 Safety Barrier and Pool Condition Inspection (WA) as an add-on or stand alone: Inspection is completed in accordance with the Western Australian Private Swimming Pool Inspector Guidelines Inspecting Private Swimming Pool Spa Enclosures Second edition 24 July 2007 / Pool Safety Inspection (QLD, NSW &VIC) as a Compliance Inspection or Advisory only: inspection and report in accordance with AS1926 1&2-2007 and QDC MP3.4: Inspector has the right not to test or inspect any component if they believe that through operation or testing it may cause damage or is a potential safety issue. -Require permission, necessary access and any required components to operate or inspect items as outlined for this inspection - Unless otherwise advised we will assume that all components can be operated and will not be damaged when doing so. No liability relating to operating a component during the inspection. - Require applicable operational manual and/or instructions relating to the inspection of any component. -If we are required to start up or turn on any component, it will be necessary to have required start up information. Otherwise we reserve the right not to operate. -information contained in the WA Safety Barrier and Pool Condition Report (as an add-on or a stand alone) or a QLD NSW &VIC Advisory Only Report is an information document only and will articulate potential issues that are likely to be flagged as deficient by council in the process of achieving required certification for the pool. It is not always possible to operate pumps. For pools and spas (excluding bath type spas located in bathrooms) to be tested must have a minimum level of water prior to commencement of inspection. Resicert accepts no liability for any subsequent drownings or accidents resulting in death or injury that may result from the advise provided in the Safety Barrier and Pool Condition Report. The Recommendations made in the report are for information only and Resicert will not seek compliance on behalf of any third party.

4.4 SMOKE ALARMS - (QLD) it is a requirement from 31 December 2021 that all rental properties are fitted with interconnected photoelectric smoke alarms, and from 31 December 2026 that all homes are fitted with interconnected photoelectric smoke alarms. These alarms must be installed in every bedroom, in hallways and on every level.

5.0 Extent of Reporting : Significant items to be reported are as follows: (a) MAJOR DEFECTS as defined in AS 4349.1. (b) A general impression regarding the extent of minor defects. (c) Any MAJOR DEFECT (marked as DEFIC in our Report) that is an urgent and a serious safety hazard.

6.0 Safe and Reasonable Access : This is a visual inspection only. The extent of accessible areas shall be determined by the inspector at the time of inspection, based on the conditions encountered at the time of inspection. The inspector shall also determine whether sufficient space is available to allow safe access. This will apply to roof spaces and underfloor access. The inspection shall include only accessible areas and areas that are within the inspector's line of sight and close enough to enable reasonable appraisal. Roof inspection by walking upon the roof will be limited to single storey dwellings which are safely accessible with the use of a 3.6 metre ladder, and only when the slope, roof condition and

climate do not reduce safety.

7.0 Exclusions from Inspection : Resicert need not inspect or report on the following items: Footings below the ground or concealed damp-proof course - the structural design or adequacy of any element of construction. - Electrical installations, smoke detectors, light switches and fittings, TV, sound and communications - Concealed plumbing, gas fittings and fixtures. - Whether the building complies with the provisions of any building Act, code, regulation(s) or by-laws. - Air-conditioning , alarm and intercom systems, automatic garage door mechanisms. - Swimming pools, pool fencing and associated filtration and similar equipment. - The operation of fireplaces and solid fuel heaters, including chimneys and flues. - Soft floor coverings. - Electrical appliances including dishwashers, incinerators, ovens, ducted vacuum - Paint coatings, except external protective coatings. - Health hazards (e.g., allergies, soil toxicity, lead content, presence of asbestos). - Timber and metal framing sizes and adequacy and concealed tie-downs and bracing. - Timber pest activity. - Other mechanical or electrical equipment (such as gates, inclinators). - Soil conditions and control joints. - Sustainable development provisions. - Concealed framing-timbers or any areas concealed by wall linings/ sidings. - Lands

For Western Australian Residential Properties built pre-1970's, we recommend an electrical inspection to ensure the Roof cabling is satisfactory.

8.0 Liability and Limitations : The inspection shall comprise visual assessment of the property to identify MAJOR DEFECTS and to form an opinion regarding the general condition of the property at the time of inspection. The Resicert report does not constitute a guarantee in relation to the property. It is a limited opinion of condition of the inspected property at the time of inspection.

Property conditions can change significantly over time, particularly under severe weather conditions and extremes of temperature. Therefore our Reports are only valid for a period of 60 days following the date of Inspection.

Resicert's liability in relation to the inspection and report will be limited to a refund of the inspection fee. The inspection and report is undertaken for the Client named on the report. No responsibility is accepted to any third party.

9.0 Money Back Guarantee : If the client is not fully satisfied with the building inspection and/or building inspection report provided, Resicert will refund 100% of the building inspection fee to the client. This will require the client to complete the request for a refund application form and agree to the conditions there-in stated prior to a refund. This guarantee only applies for a period of 60 days from the date of the inspection. After this period it is at the full discretion of Resicert whether a request for a refund will be approved.

10.0 Follow up inspections : The initial fee does not allow for any follow up visits, if required, to the residence. A quote to undertake this activity will be provided if necessary.

11.0 Estimates Provided : Any estimates or budgets provided relating to work required to be undertaken is purely to provide an indication of approximate costings. The figures provided are not a quotation or estimate to carry out any works and can not be relied upon for this purpose. All estimates and budgets which are provided are done so only on this basis, and no liability, with the client or any third party, whatsoever will be accepted in relation to budgets and estimates provided, unless otherwise stated.

12.0 Probable Costings : Any probable costings outlined represent an opinion of renovation costs only which can vary considerably depending on range of factors including but not limited to:

Type and standard of materials, fittings and fixtures chosen. -Level of client involvement and engagement required - Construction method and process chosen -Overall timings and duration of works undertaken -Fluctuations in building materials and labour costs -Scale and extent of the renovation project -When the renovation project is undertaken - Location of the works and site conditions

The probable costings provided is based on standard rates for previous projects and is not an elemental or detailed estimate. A detailed estimate of this nature can be provided by a Quantity Surveyor or through obtaining quotations from appropriate suppliers and tradesman.

13.0 Approvals for access to property : The Client represents and assures Resicert that the Client has secured all approvals necessary for entry onto the premises to be inspected. Client further agrees to defend, indemnify and hold harmless Resicert from demands or claims alleging a trespass upon the premises to be inspected. It is the responsibility of the Client or Agent to ensure the utilities are on at the time of inspection. Resicert recommends checking for permits on all additional construction performed on the property after the original construction.

14.0 Depreciation Schedules : Resicert works in conjunction with a Quantity Surveyor to provide Depreciation Schedules for Investment Properties. The Quantity Surveyor is a third party and both logos (Resicert and the third party) will be listed at the top of the report. 15.0 Proprietary Rights: The report, contents, comments and format of this inspection report are the proprietary rights of Resicert Property Inspections and subject to copyright law. Unlawful duplication can result in penalties.

16.0 Asbestos Disclaimer: If during the course of the inspection asbestos or materials containing asbestos happened to be noticed then this may be noted. Many building materials for many years contained or were comprised entirely of asbestos material. Approximate dates for legal disuse include: sprayed/lagging - late 1970s, cement sheeting - 1982, corrugated sheeting - 1984, other asbestos cement products - 1986, gaskets - 1997, friction pads - 2003. While your inspector may indicate that there may be some suspected asbestos material at the property, any property constructed prior to 2004 may have elements of asbestos in the materials, lagging, insulation, cement sheeting, piping, floor coverings, floor underlay, expansion joints, caulking, sink pads, toilet systems, pipe insulation, gaskets, gasket insulation and more materials and locations around the home. The only conclusive way to determine if asbestos is present in the home or as a part of the materials in the home is to take a sample and have it professionally tested. This sampling falls outside of the scope of this inspection. Sheetting and asbestos materials should fully sealed. If it is damaged, it should be dealt with immediately. If asbestos is noted as present within the property you should then seek advice from a qualified asbestos removal expert for further details and information on this material. Drilling, cutting or removing products containing asbestos is a high risk to peoples health and the Client should seek advice from a qualified asbestos removal expert.

17.0 Not a "Certificate of Building Compliance" report (For reports within ACT): The report may contain copies of any

approved plans, building approvals, building permit and Certificates of Occupancy and act as a compliance report for the purposes of "Building and Compliance". However, any comments made by the person who prepared the report as to whether or not, in the opinion of the inspector, the structures on the land substantially comply with the approved plans (if any) are made on the basis of a review of the plans and the visually accessible parts of the property at the time of the inspection.

18.0 Ownership rights :Resicert retains ownership and all rights to the inspection report. Resicert has the rights to all data collected during the inspection and compiled in the report. Resicert has the right to on-sell the inspection report to 3rd parties subject to removal of any specific Client details. All rights reserved.

19.0 In the event that a defect is identified that has not been documented in this report, Resicert must be notified before any remedial work is undertaken. No Liability shall be accepted where remedial action is taken prior to Resicert being advised of the defect and given the opportunity to re-inspect the property and identify the defect.
