Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

Comparable Sales Explanation – 1900 South Gippsland Highway, Devon Meadows

Due to the unique location and nature of the property at 1900 South Gippsland Highway, Devon Meadows, I have been unable to identify three directly comparable recent sales that accurately reflect its characteristics and market position.

The property is situated within the PSP (Precinct Structure Plan) development area, which creates a specialised market compared with standard residential properties in Devon Meadows and surrounding suburbs. Properties within PSP areas can vary considerably in value depending on their location, zoning, development potential, land size, planning controls and future infrastructure considerations.

As a result, standard residential sales in the surrounding area would not provide a fair or accurate comparison. While there may be some sales within the broader locality, they do not necessarily reflect the same planning status, development potential or underlying land value.

In preparing this appraisal, I have considered the available market evidence and broader property sales to establish an informed assessment of the property's current market position. However, due to its unique characteristics and position within the PSP development area, three genuinely comparable sales cannot reasonably be provided.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
